

A GROWTH AUDIT, MADE JUST FOR YOU

SBK Studios, *found first.*

You have done something most stylists never do: built a real luxury brand. A 34.2K following, viral reels, curated Experience tiers, and a look that already feels high-end. This is an honest read on the one thing holding all of it back, your beautiful brand has no website, so Google cannot find it.

The one-line takeaway: the brand and the audience are the hard part, and you already nailed both. The gap is that your whole identity lives as flat images inside Acuity, so search engines cannot read a word of it.

Your online footprint

Website	none, your entire brand lives as image graphics inside your Acuity booking page
Booking	sbkhouse.as.me · Acuity · \$50 retainer · books release monthly on the 22nd
Instagram	@stitchedbykee · 34.2K followers · 290 posts · reels to 121K
Specialty	Designer stitch braids & seamless quickweaves · shampoo included · professionally licensed
Location	Fairburn, GA 30213 · appointment-only · text 470.714.9982

You built a luxury brand.

A real, cohesive luxury identity RARE

SBK Studios already looks and reads like a high-end brand: a serif logo, a rose-and-cream world, curated Signature / Elevated / Elite tiers, and a written tone that feels intentional. Most stylists never get here. You did.

Reels that genuinely go viral STANDOUT

34.2K followers and reels landing at 121K, 91.7K, and 51K views. That is real, repeatable reach, the single most expensive thing to build, and you already have it.

Healthy-hair positioning, shampoo included DIFFERENTIATOR

Every appointment starts with a clarifying shampoo and ACV prep, and it is baked into your tiers. "Healthy hair, shampoo included" is a premium promise most braiders cannot make.

A deep, curated menu & a real booking system STRONG

Stitch braids from \$135 to \$350, quickweaves, express services, even a model program, all on Acuity with a \$50 retainer. The engine works; it just is not wrapped in a site that gets found.

The gaps, ranked by impact.

Your whole brand is invisible to Google HIGHEST IMPACT

Your beautiful branding, menu, and standards all live as **image graphics baked into your Acuity page**, and search engines cannot read text inside an image. Search "stitch braids Fairburn" or "designer braids Atlanta" and your studio does not come up. Every new client still has to already follow you on Instagram. A real site turns all that design work into pages Google can actually index.

Booking opens on a wall of rules MEDIUM

A first-timer hits "Studio Standards, please review before booking", retainer, cash-only, grace-period, before they see the beauty. The standards are 100% fair; reframed as a warm FAQ they keep every boundary and read as welcoming.

Your brands are scattered MEDIUM

StitchedByKee, StyledByKee, and SBK Studios live in separate places with no single home tying the ecosystem together. One site can hold braids, quickweaves, and content under one roof, so the whole brand compounds.

A home worthy of the brand.

You do not need to change your work or your look, you have both dialed in. You need to lift your brand out of a booking page and give it a home you own, one that keeps the Acuity flow you already use.

Your designer work deserves an editorial home, not a JPEG on a booking page. (Placeholder photography.)

What a site you own unlocks

- **A home Google can read**, so you rank for "stitch braids Fairburn."
- **Your Experience tiers, shoppable**, with prices that book in a tap.
- **Your viral reels, funneled** right next to the booking button.
- **Studio Standards as a warm FAQ**, every rule kept, none of the wall.
- **One home for the ecosystem**, braids, quickweaves, and content together.
- **A custom brand & icon kit** we refine together, uniquely yours to keep.
